VOL. II STRATHCONA, ALBERTA, FRIDAY AUGUST 14 1908 No. 81

The Saskatchewan Fight

Regina, Aug. 14.—The barrel has been turned loose in this province this week. The "workers" of the government party gathered in Regina, and then drifted out to various centres to resume operations. They all reported at the Liberal headquarters in the Duke Block, and at the rooms in the leader block, where S. P. Porter and Organizer Perry are in charge of this general organization.

Last election the barrel was turned loose the day before the contest with good effect in some places, but this workers and prosecute them wherever it is proposed to watch the debate can be secured.

James A. McKinnon, secretary of the Alberta Liberal Association, and the man generally credited with being the financial agent of the party, was in town Tuesday. He was reported by the Edmonton papers to have gone to the court to visit his sick mother, but instead he went down in the province doing "work." In the afternoon he went to Moose Jaw, to assist in the organization there, where a dead end is being made, and the provincial rights candidate will know him. He, like Col. "Jim" McLeod, is a "mighty" good fellow, but he is one of Duncan Marshall's henchmen and his work in this province will be watched with interest.

The eve of the election, both sides claiming the victory, and at headquarters here the reports are entirely conflicting regarding the outcome.

The redistribution, the fact that there are forty-one seats instead of twenty-five, and the large number of voters added to the lists since the last provincial election three years ago all tend to obscure the situation.

As the constituency will return its verdict later, as this far north country is much less settled than have been reached in the time, but of the

forty seats remaining is it likely enough that eight or ten will not be able to furnish anything like complete returns on Saturday.

It is altogether possible that even the government here will not know its fate tomorrow night. Some of the polls are far distant and returns must be made by runner or water, while in at least half a dozen constituencies reports are depending on a single wire, so that the slightest accident may delay the news.

The earliest returns to come in will be from the four cities, with their ties of the C.P.R. and the Soo line, counties, and points along the main with other constituencies along the C.N.R. main line and various routes as following at considerable intervals.

It is likely enough that the experience of the last election will be repeated and that the early returns will deal chiefly with the success of the provincial rights party, as Hamilton's and the other constituencies along the coast will be the last to be heard from.

Regarding the short and brief campaign, perhaps for strenuous effort, enthusiasm and bitter vituperation, it is unsurpassed in the history of Western Canada.

Both parties are working hard up to the drop of the hat, and though there has been no time for personal canvassing the respective leaders have fairly covered the ground and have performed prodigies of personal effort in the attempt to reach the electorate.

Calgary Veterans and Government Suing Land Grant C. P. R.

Calgary, Aug. 13.—An important meeting of the Veterans' Club was held last night and was largely attended. The meeting deprecated the action of the eastern veterans in offering their land grants for sale at low prices, and a motion was passed calling upon the executive to draft a letter to eastern press and the veterans' Association pointing out the real value of these grants and the harm that will be done by veterans selling their grants for prices below their value.

The association then passed a motion that a resolution in the form of a letter be sent to the Governor General, expressing the appreciation of their members for the grant.

Appended is a facsimile of the letter that is to be sent.

To His Excellency, the Governor General of His Majesty's Dominion of Canada,
Rideau Hall, Ottawa, Ont.,
Whereas His Majesty, by and with the advice and counsel of the Senate and House of Commons has enacted that a grant of land on scrip be given to each Canadian volunteer who enlisted for service in the South African war as a reward for his services to the empire, etc.

Be it resolved, that the Imperial and Colonial Veterans' Association of Alberta sends through you to the people of Canada a vote of thanks as a token of their sincere appreciation of their cash and every member for the above grant, and be it known that who gave our services to the empire in the South African war did so with no thought of such a reward.

We further wish to express our loyalty and our willingness to serve our King and our country in a similar manner at any future time should the occasion arise.

God Save the King.
Imperial and Colonial Veterans' Association.

Ottawa, Aug. 13.—The government has entered aid at Montreal against the Canadian Pacific railway for \$250,000 customs duty on penalties. This is one of the results of operations David Robb, employee of the railway company, now in penitentiary. He made customs payments for railway and was convicted of embezzlement, having stolen sums with which he was supposed to have made customs payments. Though the action is for over three hundred thousand dollars, the amount in dispute is less than fifty thousand dollars. The remainder is for claims for penalties made necessary under law, as by the railway company's neglect of inspection to do wrong, penalties are not to be imposed, when judgment is asked for by government.

Riotous Harvesters

North Bay, Ont., Aug. 13.—Two excursion trains of harvesters from the Maritime Provinces were stalled in Chalk River for an hour today, in consequence of a slight freight wreck ahead. During their stay they looted the Chalk River hotel.

The proprietor was carried outside, and over a thousand dollars worth of liquor and cigars were carried off. Even the cellar was ransacked and a barrel of beer in kegs stolen.

On the train-robbers' scenes ensued. The hotel was looted, and the proprietor was carried outside.

At Mackie's station the excursionists wrecked the furniture in the station agent's house.

At North Bay the police and citizens were prepared for trouble and the first sign of disorder resulted in several arrests.

Now Bobby Kerr Won

In this week's Canada the following occurs:

Kerr in this case came into his own, winning in splendid style. In his heat he beat Hamilton of the States by nine inches in 22.5 seconds. Kerr's splendor did start was particularly noticeable in this race, and he led throughout.

In the final he was opposed by two Americans, Cloughen and Cartmell, and a Britisher, Hawkins. The race produced a tremendous finish, the last of the four men being within a length of a yard of the worsted as Kerr struck it. Running in stringy paths all the way around the bend of the track on which the race was started, and being handicapped proportionately to their respective positions (the outside runners naturally receiving graduating allowances from the one nearest to the inner edge), it was difficult to see who was leading until the turn in the straight was made. Then, however, Kerr was perfectly leading, like a bolt, like a winging by a full yard. Oh! he was master of the journey, and he only being very rapidly caught in the re-join by a bare nine inches from Cloughen, who was a foot in front of Cartmell, and only another half yard away was Hawkins—a great race was in 22.5 seconds. Kerr, amidst ringing cheers, was carried to his dressing room by his comrades. The win will be all the more popular as the Canadian's hard work since his arrival appeared to be beginning to tell upon him.

Around the City

The Strathcona Gun Club will shoot to-night at 7.30.

Mr. J. L. Forte left this afternoon for Toronto, where he is in charge of the Twin City exhibit.

Every man you meet across the river is boasting ammunition. Alvery good reason why Strathcona should walk warily.

Two Edmonton men who were leaving yesterday's train were arrested on a charge of theft at the depot here. The R.N.W.M.P. gave them a drive across the river.

Richards & Pingle's minstrels attracted a large crowd to the opera house last evening, the house being filled. The show, which was of the usual type, with one or two specialities added, proved very popular.

Mr. Day Is A Farmer

Extract from a letter by Mr. R. Ross Sheppard in the "Alberta Ho"
"Still what can we expect. We have not sent farmers to legislate for us. Do we expect that the lawyers, the real estate man, the lumber merchant, the doctors, the manufacturers, and such that have not had the gratification of knowing the pleasures and feeling the tickled sensation the farmer has when sowing his seed, and 45 cent wheat and 15 cent barley, and 25 to an average of 4 cent pork, and prime fat steers of 20 cents all the way up to 45 cents for winter feed, about the actual cost of production without paying for his labor for the farmer and his family has expended in profiting and marketing? Do we, I say, expect such men, to do the same for us in the legislature that a good house farmer would do that has been through the whole troubles of the settler?"

Maiden Moonshiner

Sargent, Ky., Aug. 13.—Miss Mary Foote, twenty-seven years old, widely known as the "Maiden Moonshiner," today had a pitched battle with United States officials.
Entrapped at her camp near Beaver Creek and armed with a rifle, the girl fired sixty shots at the officials, United States Deputy Marshall Elmer Day was seriously injured and the other officials were routed.
The woman occupied an advantageous position in a ravine overlooking a public roadway. The government authorities have for a long time tried to find and arrest her.
It is said that she has been engaged in moonshining for eight years.

Canadian Markets

is by no means bad, and accounts from Canada indicate that the recovery in trade is making satisfactory progress. The recent new issues have met with a rather mixed reception. The underwriters of the Toronto Power Co.'s debenture issue had to take the very heavy subscription of 97 per cent. of their subscription; and although the Vancouver issue is said to be fully covered, we think we can fairly assume that the public's participation was decidedly moderate. We observed also that the underwriters of the Western Wheat Mills bonds had to take a very large proportion of the amount they subscribed for. In the case of the issue of Ontario Flour Mills Common stock, the letters of allotment have been postponed to applicants, who were apparently quite unaffected by the amusing criticisms of one of our contemporaries. We heard that the issue met with a very gratifying reception at the hands of the small investor. With regard to new issues we understand on excellent authority that Ottawa is looking to place 500,000 of 5 per cent. thirty-year bonds, and that Toronto also is anxious to dispose of \$1,150,000 of 4 per cent. debentures. The latter advanced a point to 50. Good prospects have still had a stimulating effect upon market values, and have improved upon speculation for this fall the danger of taking them with this section. C.P.R. has been up to about 115, largely, of course, as usual, as a result of manipulation on the part of speculators on the other side of the Atlantic. Grand Trunk are, on the whole, lower on the week, but only to a fractional extent, and the only to a fractional extent, and the Third Preference are an exception with a gain of about 5. The Canadian Northern's financial statement for the half-year has been without effect upon the quotations of this company's securities. Alberta 5 per cent. debentures, Lake St. John Income have reacted. Stocks are up a point, but Quebec and to the extent of two points. Hudson's Bays are up 1, Canadian Northern prairie lands have been in demand at a small improvement, and Southern Alberta lands have again been well supported. Western Canada are fractionally easier. Canadian General Electric are 2 point higher, and there has been a further improvement in several of the leading stocks forming the South American group. With the exception of the instance mentioned above, there has been hardly a single change in either Government or municipal securities. The London office of the Canadian Bank of Commerce has received telegraphic advice from Toronto that the directors have declared the usual quarterly dividend at the rate of 8 per cent. per annum for the three months ending August 31. The transfer books will be closed from August 25 to 31 inclusive.

He Got Out

Killarney, Man., Aug. 13.—The climax of a curious criminal case was reached this morning when Edward Shannon committed suicide, by poisoning himself in the local jail. He was on trial for breaking windows to dig out parts of the city and was suspected of graver offences, but it was not supposed that he regarded his case so desperate as to require such heroic remedies. An "honest" in progress the dead man had lived in Killarney twelve years. He was about thirty-five years of age and unmarried. He conducted a dray and cowhouse business, and was regarded as a man of rather more than ordinary intelligence, though he did not stand well in the community.

He was suspected of knowing something of several mysterious fires in this locality. His motive for the vandalism has not been made clear, though it is expected there will be some sensational revelations at the inquest. The trial of Shannon opened Thursday before Provincial Magistrate G. Rooke of Carberry. Magistrate Shannon of Killarney requesting to be excused and continued through to Friday evening. A large number of witnesses were examined. The case was one purely of circumstantial evidence. The accused did not seem especially depressed over the affair, and the tragic result was wholly unexpected. There is nothing to show from whom he secured the poison. The doctor, hurriedly called to the jail Sunday evening, pronounced it a case of strychnine poisoning. He expired at 7 o'clock this morning in frightful agony.

The Shah Is Prisoner

Tehran, Aug. 13.—The Shah of Persia made an unwise move when he called upon the high tribunes of his domain to come to Tehran and protect the city. Not only is the ruler a virtual prisoner of the "protection," but he has been deprived of the comforts of his harem. The tribal chiefs have become a greater menace to the monarch than the foes he feared before they made the most extravagant demands upon him for money and when put off threats to raise the palace and pillage the city. The \$250,000 obtained by mortgaging the crown jewels has been exhausted. When the disturbed ruler seeks to leave the camp at Budek and take counsel with the holders of his household at present residing at Salatah Nakh, he finds an insurmountable obstacle in the men of the desert and forests, whom he thought his friends. All the efforts of the British are unable to break the human walls which pen the monarch within their confines.

Shipping Regulations

Vancouver, Aug. 14.—Unless the Dominion government is willing to go as far as to debar vessels registered in Great Britain from participating in the coasting trade of Canada, the order-in-council effective on January 1, 1909, which says that certain foreign vessels, among them Norwegian, shall not enjoy coasting privileges, will not accomplish the purpose aimed at—the preservation of Canadian trade for Canadian vessels.

The reason the federal order-in-council is questioned will not be adequate to the situation is that many Norwegian tramp steamers are British built and though they may fly the Norwegian flag they may be placed under British register without the payment of duty. These vessels are perfectly free to enter the coasting trade of Canada.

Recognizing this loophole in the Canadian order-in-council a number of ship brokers are now advertising in the shipping papers Norwegian vessels to be open to charter. It is pointed out in the advertisements that the charter of the steamers may be changed to British on or before January 1 next at very little expense, a merely nominal charge in fact.

Several Norwegian vessels are now plying on the coast and in all probability next season will see a number of Norwegian-owned, but British registered, craft at work in those waters.

C. P. R. Strike

Montreal, Que., Aug. 13.—To avoid the pickets, the C.P.R. runs a special train for its employees from the Angus shops to the city points. The strikers picketed the stations in return.

At Hochelaga the pickets met the men as they returned this afternoon, but were ordered off the station premises by special police. All obeyed except Max Giroux, a striking mason, who was arrested for intimidation.

Another striker was arrested for trespassing in Place Vigor station. Both were being sent to the morning.

The strikers are very much claiming there was no justification for the arrests.

Winnipeg, Man., Aug. 13.—The strike is proceeding quietly here, although the windows of the Moose Jaw Winnipeg train was broken by stones from sympathizers on route. The strike leaders deny that two hundred men are in the shops, but say they may be that many in the yards and shops.

NOTICE

A special meeting of the Board of Trade will be held in the Board rooms on Monday, Aug. 17, 1908, at 8 p. m., to discuss the post office site.

CURRENT COMMENT

GOD SAVE TIME KING.

The following notes appear in the Saskatchewan Phoenix of last Monday: "Mr. Duncan Marshall, editor of the Edmonton Bulletin, will address a mass meeting of the citizens of Strathcona City in the Capital Hall on Wednesday evening, August 12." The notice of the meeting begins with this usual loyal wish, "God Save the King!" We heartily concur, God Save the King! God Save the country! God save the Empire when people are swayed by men of the Duncan Marshall type politically.

Edmonton has jumped greedily at the idea of an amalgamation with the city and will meet there. The whole advantage will be on the side of Edmonton, the whole disadvantage would be on the side of that nameless suburb of Edmonton that had once been Strathcona. We have yet to learn of one gain that would accrue to the nameless suburb by this amalgamation. The Edmonton people and press naturally desire amalgamation and the shrewd men of Edmonton have sedulously spread the theory that it would be to the advantage of that part of the world at present known as Strathcona, the University City of Alberta, but after the absorption the nameless suburb. It is to our mind extremely unfortunate that this question has been raised at all; it will only serve the purpose of raking up old, sore and differences that we had hoped had been consigned to an unremembered grave. That the interests of the two cities are too very large extent identical we have always argued. That these interests are served best by harmony and fraternity between the two cities no one will deny. Let us do everything in our power to continue the present friendship. Let us boost the Twin Cities with all the eloquence at our command. If, however, Strathcona is mindful of her own interests, if her citizens desire her expansion and prosperity, let them nip this attempt of Edmonton to absorb in the bud. There is too much of the "won't you come into my parlor and the spider to the fly" about it. Can anyone point out any tangible benefit that will accrue to Strathcona by amalgamation? We have heard it suggested that it might decrease the expense of municipal administration. How? Is it going to decrease the amount of work or the area controlled. We believe that if anything it will increase it. For each of the municipal staff offices there would be two men—two city electricians, two city engineers, etc., etc. After Strathcona had been wiped out there would be work for cloth. It would be necessary to appoint a chief. He would demand increased salary for his increased duties. There has been shown one case where the amalgamation should apply to this side of the river. We admire the shrewdness of our neighbors in desiring it. But it is too obvious what the reason is. The old statement that "last century belonged to the United States and this one to Canada" is being repeated in urban matters. The past five years have been Edmonton's, the next five will be Strathcona's. We have absolutely no doubt that the advent of the cars will bring increased population to Strathcona very quickly. Provided the same convenience of access can be obtained it is not likely people will prefer to reside by the picturesque banks of the Saskatchewan in the University city rather than by the banks of Rat Creek. Strathcona's day is coming fast. If she throws away her identity and abandons her opportunity now she will forever regret it.

The footprints of Dyspepsia have been directly traced to the stomach nerves. While these "inside nerves" fail, indigestion and stomach distress must surely result. For this, druggists everywhere, are supplying a prescription known as Dr. Shoop's Restorative First, these tiny insides, stomach, heart, and kidney nerves fail. Then gas belching, heart palpitation, or falling kidneys follow. Don't drug the stomach, or stimulate the heart or kidneys. That is wrong. Strengthen these failing nerves not the organs that are calling for help. With 24 hours after starting the Restorative treatment, you will realize the gain. A test will tell. Sold by All Dealers.

Chronicle Want Column

Advertisements not exceeding seven lines, one line 50¢, one week \$50; additional lines 10¢ a line. All Want Ads. to be prepaid.

The Conservative Platform

As Enunciated at Halifax and Other Places by Mr. R. L. Borden, Leader of His Majesty's Loyal Opposition in the House of Commons.

1. Honest appropriation and expenditure of public moneys in the public interest.
2. Appointment of public officials upon consideration of capacity and personal character and not of party service alone.
3. More effective provisions to punish bribery and fraud at elections, to ensure thorough publicity as to expenditures by political organizations, to prevent the accumulation of campaign funds for corrupt purposes and to prohibit contributions thereto by corporations, contractors and promoters, to expedite hearing of election petitions and to prevent collusive arrangements, the withdrawal or compromise thereof, to provide for a thorough investigation to corrupt practices and if necessary to appoint an independent prosecuting officer to enforce the laws so amended.
4. A thorough and complete reformation of the laws relating to the Civil Service so that future appointments shall be made by an independent commission acting upon the report of examiners after competitive examination.
5. Such reform in the selecting of members of the Senate as will make that chamber a more useful and representative body.
6. A more careful selection of the sources from which immigration shall be sought, a more rigid inspection of immigrants and the abolition of the bounty system except under very special circumstances and for the purpose of obtaining particularly desirable classes of immigrants.
7. The management and development of the public domain (in which are to be included great national forests) for the public benefit and under such conditions that a respectable proportion of the increment of value arising therefrom shall inure to the people.
8. The operation and management of our government railways by an independent commission free from partisan control or interference.
9. Development and improvement of our national waterways the equipment of national ports, the improvement of transportation facilities and subsequent reduction of freight rates where the place of production and market, whether at home or abroad and the establishment of a thorough system of cold storage.
10. The re-organization of the present railway commission as a public utilities commission with wider power and more extended jurisdiction, so as to establish thorough and effective control over all corporations owning or operating public utilities or invested with franchises of a national character.
11. The establishment after due investigation of a system of national telegraphs and telephones under conditions which shall be just to capital already invested in those enterprises.
12. The improvement of existing postal facilities, especially in newly developed portions of the country, and inauguration after proper inquiry as to cost, of a system of free rural mail.
13. A fiscal policy which will promote the production within Canada of all useful articles that can be advantageously manufactured from or by means of natural resources, having due regard to the interests of the consumer as well as to the just claim of our wage-earning population.
14. The promotion by negotiation and other constitutional means of a system of mutual preferential trade within the Empire.
15. The restoration of the public lands to the Provinces of Alberta and Saskatchewan upon fair terms.
16. The unimpaired maintenance of all powers of self-government which have been conferred upon the Provinces of Alberta and Saskatchewan.

GEO. W. MASSIE, Assignee.

TRATHCONA LODGE I. O. O. F. NO. 9. Working under the jurisdiction of the Alberta Grand Lodge, meets Monday at 8 p.m. in New Odd Fellows Hall, 1st St. South. Visiting brethren welcome. Will rent hall to other lodges for entertainment.
J. C. Wainwright, R. G. V. Richards.

IN THE MATTER OF THE ESTATE OF J. K. McMENOMY & COMPANY, INSOLVENT. Notice is hereby given that the above named insolvent, J. K. McMenomy & Co. of Strathcona, carrying on business as general merchant under the firm name of J. K. McMenomy & Company have made an assignment to one of their estate for the general benefit of their creditors, under the Assignments Act of the Province of Alberta.

The creditors are notified to meet at the office of the Kenneth, McKenzie Company, Fourth street, in the City of Edmonton, at two o'clock in the afternoon of Saturday, August 8th for the purpose of receiving a statement of the affairs of the above named insolvent, for the appointment of inspectors, and the giving of directions with reference to the disposal of the estate.

All persons claiming to be entitled to rank must file their claims accompanied by statutory declaration, with me on or before the 1st day of September A. D. 1908, after which date I will distribute the assets thereof, having regard to those claims only of which I shall then have received notice.

GEO. W. MASSIE, Assignee. Edmonton, Alberta, Aug. 6th, 1908.

A FEW SCARS.

(Trilium.)

A reliable Ottawa correspondent has recently been enumerating the "scars" left in the Government as a result of the recent session. It is a long list. Dealing with one department, that of Marine, he comments the scars as follows:

1. The Courtney Commission's general declaration that the whole Department is rotten, both as to organization and honesty.
2. The report of Falconer's experts that the system was so bad that the Department paid for materials which it never received.
3. The Auditor-General's denigrating statement that he did not believe the certificates furnished by three officials of the Department, one being the Deputy Minister.
4. The Courtney Commission's charge that at the Sorel shipyard there were enormous overcharges such as \$6.00 a barrel was paid for flour when the price at Quebec was \$4.50.
5. The Courtney Commission's charge of gross extravagance by the Lighthouse board.
6. The assertion by the chief engineer of the department, Col. Anderson, that he regarded the Commission of inquiry, J. P. Fraser, as a representative of the acetylene gas interest.
7. The Courtney Commission's charges as to laxities in buying the Wilson acetylene gas buoys.
8. The Courtney Commission's charge of gross extravagance in competition with the Anticosti Lighthouse.
9. The Courtney Commission's charge that E. A. Wallberg got certain lighthouse construction contracts without tender.
10. The Courtney Commission's discovery that \$125,000 had been paid to the Canadian Fog Signal Company when Judge Cassels says \$25,000 would have been sufficient.
11. The Deputy Minister's admission to the Courtney Commission that in three years some \$200,000 had been paid in improperly high prices through the operation of the patronage system.
12. W. H. Noble's statement to the Casels Commission that he feared punishment and persecution by his superiors for objecting to exorbitant prices.
13. The Auditor-General's statement that the Deputy Minister tried to hand back to B. J. Coughlin, of Montreal, the money which fear of the Public Accounts Committee had compelled him to disburse.
14. All these emanate, not from Conservatives, but from sources presumably friendly to the Government. The Opposition added a few:
15. The exorbitant sums paid to Kenneth Falconer, and the headline way in which the bargain with him was made.
16. Mr. Brodeur's heavy personal expenses abroad.
17. Renewed exposures of excessive prices for provisions, clothing, etc., on some of the Government ships.
18. Merwin's profitable bargain with his tug Victor.
19. More monopoly fishing leases on Western Lakes.

In connection with this department it was brought out that the Civil Service Commission of 1897 expressly described the management of the Department as prudent and business-like. The deterioration would seem to be comparatively recent. The "scars" left on the Public Works, Interior and other Departments will follow later.

August time, tells on the nerves. But that spiritless, so amiable feeling can be easily and quickly altered by taking what is known by druggists everywhere as Dr. Shoop's Restorative. Within 48 hours' time beginning to use the Restorative, improvement will be noticed. Of course full health will not immediately return. The gain, however, will surely follow. And best of all, you will realize and feel your strength and ambition as it is returning. Outside influences depress first the inside nerves then the stomach. Heart and Kidney will usually fail. Strengthen these failing nerves with Dr. Shoop's Restorative and see how quickly health will be yours again. Sold by all Dealers.
